

We Provide Solutions To Critical Challenges In Medical Equipment.

We're proud to provide RF amplifiers and modules that meet the most exacting specifications for a variety of medical equipment. In most cases, we'll have an amplifier on the shelf that meets your power, frequency, and features needs. We also welcome the challenge of creating custom configurations to meet your exact requirements.

Our amplifiers for MRI, ablation, radiation, ultrasound and other medical applications provide all the most critical features.

- 0.5 - 100MHz and 200 - 500 Watts
- Fast rise and fall times
- Phase and amplitude stability
- Extremely low noise floor
- Negligible RF droop
- Unconditional stability
- Infinite VSWR protection
- High accuracy output
- Temperature compensation
- Modular design
