

ZERO TOLERANCE.

In Modern Warfare, There's No Margin For Error.

The high-power broadband RF amplifiers and modules from AR Modular RF are the answer to military EW and ECM equipment needs. These series of amplifiers which cover frequencies up to 2500 MHz deliver clean, reliable, power. Amplifier modules from 1 – 300 watts, systems up to a Kilowatt. From the Amazon, the Mohave or any trench in the farthest outpost.

We can also create specialized amplifiers to meet your specific needs ... faster and more affordably than you may have thought possible.

Whether deployed in attack, self-defense, surveillance or in electronic countermeasures, missions – and lives – depend on AR. For more information, call us at 425-485-9000 or visit us at www.ar-worldwide.com
